

Gatehouse News

22 November
2015

Developments of the Gatehouse Website. The comprehensive bibliography and gazetteer of the castles, fortifications and palaces of medieval England and Wales.

A short update.

The *Proceedings of Cambridge Antiquarian Society* have been put online via the [Archaeological Data Service](#) (along with the *Transactions of the Cambridgeshire and Huntingdonshire Archaeological Society*). Links have been added to the references in relevant Gatehouse pages. The links in the '[Journals](#)' page have been check and updated where needed.

Duncan Wright, Oliver Creighton, Michael Fradley and Steven Trick have written a paper, published in *Medieval Settlement Research*, on Castle Carlton, Lincolnshire and the records for the [Castle](#) and the [Borough](#) have been updated. In particular the record for the borough is significantly changed as they now locate this failed borough as separate and further east from the castle and, therefore,

*The residents of Castle Carlton.
Not the the archaeological survey team!*

outside the outer bailey earthworks of the castle and, therefore, undefended.

I've opened a [Twitter account](#). I'm still working out in my head how best to use this media. At the moment I'm just posting a photo each day from my own collection (please feel free to use these) but I may use it for some short news report. I'd certainly welcome any suggestions of what people might find useful or entertaining.

Philip Davis
